Phone Meetings – Simple, Powerful, Affordable

Conference calling is essential to how businesses communicate with remote employees, customers, prospects and business partners. Copper offers the ideal solution for day-to-day group communications by delivering automated, easy to use, reliable and cost-effective conferencing services.

Meeting your business needs:

Copper On Demand Audio Conferencing is completely automated enabling you to quickly and easily communicate with up to 125 participants on a single conference at any time. Simply dial your toll-free number and enter your unique conference ID and PIN to instantly begin a conference without a reservation or operator assistance.

Benefits

Copper gives you the tools to:

- Increase productivity by instantly bringing participants together - no reservation required
- Enhance your audio conference with PowerPoint presentations and web-based call control
- Track your conferencing usage with post-conference summaries and online reports
- Meet your expense budget with affordable, low cost conferencing

A Complete Service

Copper gives you all of the tools to manage your participants, secure your meeting and record your conference – all from your telephone keypad. Copper On Demand Phone Conferencing also provides web-based conference management and basic presentation features at no additional cost. Conferencing couples 99.99% published uptime with our industry-leading, 24/7 customer support to ensure that your remote meetings always run smoothly.
