

REACH FARTHER, FASTER

OFF-NET SOLUTIONS FROM NITEL

QUICKLY EXTEND YOUR NETWORK

Leasing network outside your own footprint to fulfill customer requirements is a part of life for every carrier in the US. Nitel makes off-net connectivity easy with virtually ubiquitous reach and unique products tailored to provide cost-effective connectivity in difficult-to-reach parts of the country.

Leverage the networks of over 100 tier 1 providers with only one vendor agreement through Nitel. Doing business with Nitel alleviates the time and energy spent evaluating and managing multiple carriers for the best option for your customer.

Nitel Products:

Dedicated Internet Access: T1 through 10Gig

MPLS: Even out of region!

Private Line: Flat rates in 48 contiguous states

Metro Ethernet: Widest nationwide coverage

NATIONAL NETWORK FROM A SINGLE SOURCE

Nitel has streamlined the sourcing of telecom networks through its proprietary intelligence tool, n-Tellisource. n-Tellisource ensures that clients receive the best network option by identifying carriers, networks, availability and routes from over 100 providers. Quotes are returned quickly and accurately, and you are assured of the best price using the best network.

With data on over 100 of the nation's top-tier network providers, n-Tellisource provides the intelligence to design and price the best network solution quickly and efficiently.
