MegaPath Complete Office™ Solutions: Voice. Data. Security. Hosted IT Services.

With Complete Office™ Bundles, businesses get scalable Voice, Data, and Hosted IT Solutions that increase productivity and reduce costs.

MegaPath Complete Office™ Solutions

MegaPath's Complete Office™ solution enables businesses to enjoy the convenience of selecting a complete data and communications solution from a single provider, as well as provide reliable services that enable employees to work more efficiently. Businesses have the flexibility to custom build their cost-effective bundles based on their unique needs.

How It Works

Each Complete Office bundle starts with reliable Hosted Voice, Hosted Exchange, Data Backup, Advanced Calling Features, Free Installation, and Free Equipment. Next, add Business Broadband and the business services you need—choose from Proactive Monitoring, Hunt Groups, Auto Attendant, Analog Faxing, and Hosted SharePoint®—all at a discounted price.

Save Up To 15% on Your Entire Bundle

Complete Office solutions start at $39.95 per month (3-year term) plus the cost of broadband access and any optional services (see box). Receive up to a 15% discount on the cost of your entire customizable bundle.

Benefits of Complete Office™ Solutions

- Implement a unified solution to reduce costs and increase productivity
- Experience reliable voice services with guaranteed Quality of Service (QoS) delivered over a private, secure network
- Enjoy flexible broadband options including Ethernet, T1, Bonded T1, DSL, and Cable
- Eliminate failure-prone tape backups with automated cloud-based data backups
- Enjoy the convenience of having a single service provider
- Take advantage of advanced calling features, free use of equipment (Cisco 303G or Polycom SoundPoint IP 335 phones), and free installation

Complete Office™ Solutions Include

Broadband Access (per location)

Hosted Voice and MegaPath Anywhere number

Unlimited national calling plan

Advanced calling features:
Call forwarding, Call waiting, Caller ID, Call Transfer, Find Me / Follow Me

HD Voice

Hosted Exchange email account

Data Backup (5 GB of initial storage)

Voicemail

Voicemail transcription

Business-class SLAs

Voice over Internet Protocol (VoIP)

MegaPath Voice services save you money and provide advanced calling features – that a traditional phone service can't touch.

In addition to eliminating traditional telephony local and long-distance charges, MegaPath's VoIP technology helps businesses reduce their capital expenditures by allowing businesses to use a single connection for voice and data services. Advanced features include one number identification through features such as new Hosted Voice Mobile, Find Me / Follow Me, Visual Voicemail, and an easy-to-use Management Portal.

Hosted Microsoft® Exchange

Hosted Microsoft® Exchange is an advanced productivity solution featuring corporate-class email, as well as shared calendaring, tasks, and contact capabilities. It enhances employee communication and collaboration for businesses and organizations of any size. MegaPath provides Hosted Exchange at an affordable monthly cost, eliminating your daily maintenance worries with no investment in costly IT infrastructure.

Data Backup

Cloud-based data backup and storage make recovering from data loss a painless process because they enable you to restore your data files quickly, conveniently, and affordably. Because MegaPath understands that your data is your business' lifeline, we partnered with Mozy—the world's most trusted online backup service for consumers and businesses—to offer our customers a reliable, affordable, and easy-to-implement off-site data storage solution.

Business Broadband

The Internet is a cornerstone for today's businesses. A reliable Internet connection must be fast enough for employees to conduct their daily tasks at an efficient pace and competitively priced in order to be an asset. That's why MegaPath offers a wide range of business-class Internet solutions; Complete Office™ broadband access options include MegaPath's Ethernet, T1, Bonded T1, DSL, and Cable.
